DEDY KRISTIANTO LUMBANTOBING

WEB DEVELOPER

ABOUT ME

Introduce my name is Dedy Kristianto Lumbantobing. I was born and raised in the city of Pematangsiantar which has various Batak culinary delights. I started my journey in the world of programming when I was still in high school, where I was fascinated by how software can have a positive impact on society. Since then, I have continued to learn and develop my skills in this field. Besides that, I also have fun editing photos and videos, where I can channel my creativity.
